Εκπρόσωπος του ΣΕΕ στη WFOT

Dear Colleagues, The WFOT has been contacted by Global Therapy Group, a non-profit organisation who provide sustainable rehabilitation services, therapy education, and employment opportunities to Port au Prince, Haiti. Their clinic is staffed with a Haitian Clinic Manager, a Haitian Rehab Tech, and volunteer therapists from around the world. The patient population includes children and adults, orthopaedics, CVAs, developmental disabilities, trauma, hand injuries, etc. They are currently seeking occupational therapists, physical therapists and speech therapists to work as volunteers for rotations of two weeks or longer. Arrangements have been made for guest housing, transportation and translator services. Interested therapists should contact: dhutchinson@globaltherapygroup.org
